

# Activity 1: Values

*Facilitator: Alexander Jacamo*

Think about the values you bring to work each day.

Think about COM's past and present. What institutional values do you associate with COM?

What do you see in common between your own values and the values you associate with COM?

Discuss with your group and come to consensus on three words you believe best represent COM's values.

Now that you have reflected on your values and the College's values as a group, what are the three words you believe best represent COM values?
