Letter from the President

Dear Students, Prospective Students, and Community Members:

Each year, the end of spring semester and the beginning of the summer term culminate with an annual commencement ceremony celebrating student achievement and success. This year's event will take place on May 29 at 10 a.m. in Pieper Field located behind the Diamond P.E. Center at the Kentfield Campus. Our keynote speaker is Thomas Peters, Ph.D., President and CEO of Marin Community Foundation.

Graduation is a particularly poignant moment in the lives of our students and their families, often representing years of hard work and sacrifice. Commencement also exemplifies the dedication and commitment of our faculty and staff members who work intently with students every day helping them achieve their academic goals and lifelong dreams.

This year's graduation ceremony is particularly meaningful to me because it is the last commencement ceremony that I will preside over in my role as College of Marin Superintendent/President. I am retiring at the end of June after serving six years at College of Marin, a total of 11 years as a college president; and a total of 38 years in higher education. I'm very proud of all that we have accomplished together at College of Marin and am immensely grateful for the hard work of the faculty, classified staff, students, managers, and Board leaders who have helped make College of Marin a wonderful resource for our community.

Thank you for giving me the opportunity to serve with you!

Sincerely,

Frances L. White

Skills Certificates

Less Than 18 Unit Credit Skills Certificates

Skills Certificates may be part of a "ladder" of skills, beginning with job entry skills and leading to a full Certificate of Achievement Program or may constitute a skill set that enables a student to upgrade or advance in an existing career. Skills Certificates are shorter in duration and narrower in scope than the Certificate of Achievement that provides full preparation for employment in a career. Contact the specific department for detailed information.

Indian Valley Campus Classes

In the midst of unprecedented growth and facility construction at the College of Marin Indian Valley Campus (IVC), a philosophy of sustainability weaves through the curriculum of workforce development classes.

Students in traditional trade courses such as Auto Technology and Auto Collision Repair Technology have been working with students in electronics classes to design and build alternative powered vehicles. At the same time, the new Solar Technology program is active with students learning the latest best practices for the industry while Environmental Landscaping students are learning about sustainable soil and water management practices. A new two-acre organic farm offers students the opportunity to learn and grow at the on-site Center for Sustainable Horticulture.

Indian Valley Campus now offers a variety of classes that will transfer to four-year universities. You can save thousands of dollars on the cost of your baccalaureate degree by attending College of Marin for the first two years of your college education.

For a complete listing of summer 2010 IVC classes go to www.marin.edu.

FILM

COMM 108A **1.0 Unit**
Film: Japanese Cinema

A look at classic Japanese films reveals a national tradition as old as American film, but one that took an approach to cinema which echoes the arts, philosophy, and narrative techniques of its own culture. Viewing representative examples of feature film by major directors Akira Kurosawa, Yasujiro Ozu, and Kenji Mizoguchi, we will see how the major Japanese directors used camera angles, composition, and transitional shots to convey Japanese philosophy. We will also see the source of such American west-

erns as "Magnificent Seven" and the recent "Last Man Standing" in Kurosawa's "Seven Samurai" and "Yojimbo." Transfer Credit: CSU

Film: Best Screenplays

"With great screenplay, even a mediocre director can manage to make a great film"—Japanese auteur director-writer Akira Kurosawa. This class is for those interested in writing for film or for those intrigued by how much of the final film comes from the director and how much from its original source -- the writer. We will view films from the perspective of their screenplays. Issues of plot structure and character transformation will figure importantly in our investigation, but so will how great screenplays shape a viewer's emotional and intellectual experience. Illegal Distribution of Copyrighted Materials

College of Marin students are prohibited from using the college's information network to illegally download or share music, video, and all other copyrighted intellectual property. College of Marin supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the college's information network who have violated the law.

Be aware that illegal forms of downloading and file sharing, as well as the unauthorized distribution of copyrighted materials, are violations of the law and may subject you to academic sanctions from the college as well as criminal and civil penalties, including a lawsuit against you by the Recording Industry Association of America (RIAA). Learn more at www.campusdownloading.com. In addition to being illegal, file sharing drains the network bandwidth, which slows computer connections for students and employees who are using the network for legitimate academic purposes and ultimately costs the college money. There are plenty of easy, affordable ways to get music online legally. For a list of sources that offer legal downloading sites, access www.riaa.com.

First Class Meeting

Attend classes which begin
Monday, June 14, 2010.

Failure to attend a class does not constitute an automatic drop. You must drop classes online by the refund deadline or the state requires fees be assessed. If you cannot attend the first class meeting, you may ask if your place can be held in the class by e-mailing the instructor or completing and mailing the form to the right. Please note that instructors are generally not on campus between terms. For registered students and for students on the waiting list, instructors take roll at the first class meeting.

By attending the first class meeting on time, students may avoid losing their place to another student. If you do not wish to continue in a full-term class, you must request a drop online by the deadline date even if you do not attend. See Summer Classes Deadlines Dates listing on pages 14-15 to avoid fees and a penalty grade.

Dropping Classes

Students may drop a class online at mycom.marin.edu. Please note: you must provide a valid e-mail address to create a student portal account. See Summer Classes Deadline Dates listing on pages 14-15 to avoid fees and a penalty grade.

Not attending a class does not constitute a drop. You are also responsible for any outstanding fees for courses you did not attend and did not drop by the refund deadline.

Course Repetitions

Generally, students may enroll in a course only one time. Check the college catalog for exceptions. Specific activity courses may be taken only four times.

Students who previously received a D, F, or NP grade in a non-repeatable class may enroll in the class two more times. If the student drops the class and is issued a W symbol, the student may enroll in the class again.

IMPORTANT: If a student petitions and is authorized to repeat a non-repeatable course after the third enrollment, the grade that is earned for the course will be part of the student's permanent academic record and will be posted on the student's official academic transcript. The grade may be counted in meeting a prerequisite; however, the new grade will not count towards units earned, GPA calculations, or graduation requirements.

Closed Classes

Classes are closed when they reach the enrollment limit. You may choose to place yourself on a wait-list and attend the first class meeting to see if there's space available.

Course Conflicts

As a general rule, the State of California prohibits student's attendance in two or more courses which meet at the same or overlapping time for which a California community college will claim funding for that student's attendance. However, it is recognized that without an occasional overlap in schedule, students could be denied the opportunity to complete their studies in a reasonable period of time. In order to accommodate this possibility, College of Marin will permit a student to enroll in overlapping courses if: (a) rationale justification (scheduling convenience is not considered one) on a student-by-student basis can be established and can be documented by the college, and (b) the college maintains documentation that each student made up the hours of overlap in the course (partially or wholly not attended as scheduled) at some other time during the same week under the supervision of the instructor of the course. Students must complete and submit a Time Conflict Petition to the office of Admissions. (Available online on the Admissions page at www.marin.edu or at the Admissions Offices at either campus.)

Academic Information

Catalog

Although this schedule contains a summary of important policies and procedures, students are encouraged to review the college catalog. The current catalog is available online at www.marin.edu.

Prerequisites, Corequisites & Advisories

Prerequisite

A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a particular course or program.

The college requires students to complete prerequisite courses with a grade of C, P, or higher prior to registering in the course requiring the prerequisites. Examples of courses which may require prerequisites:

- Courses for which specific prerequisites have been justified by content review, the appropriate level of scrutiny and any other validation procedures required by law (Title 5, 55201 a-f).
- Sequential courses in a degree-applicable program.
- Courses requiring a prerequisite to transfer to a four-year college.
- Courses requiring preparation to protect health and safety.
- Technical or vocational courses or programs that require special preparation.

Equivalent Course Work

Some prerequisites may be satisfied by equivalent course work from an accredited institution other than College of Marin. Before enrolling in classes, please contact a counselor at 415.485.9432 for more information.

Prerequisite Challenges

Students have the right to challenge prerequisites on certain, specified grounds and following necessary procedures. Please see the college catalog or contact the Challenge Office at 415.485.9431 for more information.

Prerequisite Challenge Deadline

Prerequisite challenges must be initiated no later than 4 p.m., Thursday, June 3, 2010 for the summer term.

Corequisite

A corequisite is a condition of enrollment consisting of a course that a student is required to take simultaneously in order to enroll in another course. Courses which may require corequisites include: courses that are part of a closely related lecture-laboratory pairing requiring concurrent enrollment.

Advisory

An advisory is a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

Other Limitations

Other limitations on enrollment may include:

- Courses that require public performance or competition.
- Blocks of courses for which enrollment is limited in order to create a cohort of students.

Grading

In Progress Grades

An IP grade is only assigned for open-entry/open-exit classes or classes that span two terms. Students who receive an IP grade must re-enroll in the subsequent term or they will receive the alternative grade assigned by the instructor. The enrollment fee will be charged for re-enrollment.

Incomplete Grades

Students who received an Incomplete grade may not re-enroll in the same course until the incomplete work is completed and/or a final grade is posted to the student's academic record.

Pass/No Pass Option

In those courses which permit a student to be evaluated either on a P/NP or a letter graded basis, a student must select the P/NP option no later than 30 percent of the class. The option can be selected online during the registration period. After classes begin, students must submit a Change of Grading Option form to the Office of Admissions and Records. The option **cannot** be changed after the deadline date. To receive a pass grade, course work must be C level or higher. **Please note: Some colleges and universities will not grant transfer credit for courses with pass/no pass grades.**

Final Grades

Final grades will be available online at my-com.marin.edu. Check the Important Dates calendar on page 3 for date.

Transcripts

Please order your transcripts early to avoid any delays during peak periods. Students may receive two copies of their transcripts for free. Additional copies are \$6 per copy. Rush transcripts are \$15 per copy. Transcript requests may be faxed. For instructions, go to the college Web site: <http://www.marin.edu/admissions/transcript.htm>.

A Student's Right to Privacy

Occasionally, College of Marin receives requests from various entities or private persons seeking directory information on our students. These entities can be public, private, or governmental in origin, e.g., private scholarship search companies, public and private colleges and universities, U.S. Military (Department of Defense and others).

Directory Information Defined

Directory information is defined as information contained in an educational record of a student which would not generally be considered harmful or an invasion of privacy if disclosed. It includes, but is not limited to, the student's name, address, telephone listing, date and place of birth, level of education, major field of study, participation in officially recognized activities and sports, weight and height if a member of an athletic team, dates of attendance, degrees and awards received, and most recent previous educational agency or institution attended.

Release of Directory Information

Directory information may be released at the discretion of the college; however, under Federal and State law, a student has the right to request that College of Marin withhold directory information on behalf of the student.

Once a request is made, directory information will be withheld from all entities. The college assumes no liability for honoring a student's request that such information be withheld.

Request to Withhold Directory Information

A request to withhold directory information must be directed to the Dean of Enrollment Services in writing. The request must be signed and dated by the student. Students may also come to the Admissions and Records Office at the Kentfield Campus or Indian Valley Campus and complete a Request to Withhold Directory Information form. Forms are available online at: <http://www.marin.edu/admissions/index.htm>.

Graduation/Transfer Information

Transfer Admission Support

As a means to support transfer admissions, College of Marin participates in guaranteed admissions to specific University of California campuses, California State Universities, and private universities. College of Marin also offers cross enrollment at UC Berkeley to qualified students. Contact the COM Counseling Office for more information. In addition, the Counseling Department works with the Transfer Center, staffed for the purpose of helping students research transfer and admissions requirements.

The Associate in Arts (A.A.) degree or Associate in Science (A.S.) degree will be awarded to any student upon satisfactory completion of all of the following seven requirements:

1. **Units**—The Associate in Arts (A.A.) degree and the Associate in Science (A.S.) degree require a minimum of 60 lower division units to include all the requirements indicated below and any additional elective units needed to satisfy the 60 unit minimum. Courses numbered 0-99 are not applicable to the Associate degree.
2. **Major Requirement**—At least 18 units must be taken in a single discipline or related disciplines as indicated in the COM Catalog.
3. **Scholarship**—An overall grade point average (G.P.A.) of 2.0 ("C" average) in all degree-applicable courses (numbered 100 and above) taken at COM and in all acceptable lower division courses transferred from other colleges.
4. **Residence**—Successfully complete at least 12 units in the major requirements at COM.
5. **Mathematics Proficiency**—One of the following options:
 - (a) A satisfactory score on the Math Assessment Test, i.e. eligibility for a level beyond Intermediate Algebra (Math 103), such as Math 104, 110, 115, 121, or 123 or
 - (b) Completion of Intermediate Algebra (Math 103 or Math 103A plus 103B or Math 103X plus 103Y) with a grade of "C" or higher.

Transfer Curriculum for the University of California and California State University

The Intersegmental General Education Transfer Curriculum (IGETC) is a program that College of Marin transfer students can use to fulfill lower division general education requirements at both the University of California and the California State University. There are other options that fulfill general education requirements, but none of the options cover both the University of California and California State University.

The IGETC will permit a student to transfer from College of Marin to a campus in either the University of California or the California State University System without the need, after transfer, to take additional courses to satisfy campus lower division general education requirements. The IGETC is not an admission requirement to the University of California or California State University. Existing campus specific admission requirements for transfer students remain unchanged.

It is not advisable for all transfer students to follow the IGETC. The IGETC is not recommended for students planning to major in Engineering, Biological or Physical Sciences or majors that require extensive lower division preparation. Contact a College of Marin counselor for further information regarding University of California or California State University schools where completion of the IGETC is not recommended.

IGETC Certification

All course work applicable to the IGETC must be completed and certified in its entirety prior to transfer in order to be accepted by the University of California or California State University. Certification indicates that all lower division general education requirements for the University of California or California State University have been met. Courses certified for IGETC must be completed with a grade of "C" or higher. It shall be the student's responsibility to request certification when requesting the last transcript from College of Marin prior to entering the University of California or California State University system. Students should contact the Counseling department to initiate IGETC certification.

In addition to the course requirements for each subject area, full certification for California State University must include completion of the Oral Communication Requirement. For the University of California, Oral Communication is not required, but the certification must include satisfactory completion of a Language Other Than English Requirement. Courses taken at other institutions may be used to fulfill the IGETC. Students should be aware, however, that placement of courses within IGETC subject areas may vary from college to college. Placement of a course will be based on the college of attendance and its IGETC pattern

at the time the course was completed.

Completion of the IGETC program will be certified by the last community college that the student attends. As a general rule, IGETC can be certified for California community college transfer students who have completed transfer units at a University of California, California State University, or independent college provided that the student has completed most of the transfer units at one or more California community colleges.

Advanced Placement Test

Advanced Placement Test (APT) scores can be used to satisfy certain areas under IGETC. Please see the AP Chart listed in the current 2009-10 catalog. Contact a College of Marin counselor for further information regarding use of AP test scores.

IGETC Program

Students should be aware that this course list is subject to change.

College Policies

Philosophy

The Marin Community College District has long recognized that an academic community is harmed in many ways by the abuse of alcohol and the use of other drugs. This high risk behavior is exemplified by decreased productivity of members of the community, serious health problems, strained social interactions as well as forms of vandalism. The process of education and learning are especially impaired by alcohol abuse and the use of illicit drugs.

College of Marin subscribes to the basic philosophy of the Network of Colleges and Universities Committed to the Elimination of Drug and Alcohol Abuse, which states:

- The institutional establishment enforces clear policies that promote an educational environment free from the abuse of alcohol and other drugs.
- The institution will provide education for its members for the purpose of preventing alcohol and other drug abuse as well as educating them about the use of legal drugs in ways that are not harmful to self or others.
- College of Marin will create an environment that promotes and reinforces healthy responsible living; respect for community laws; campus standards and regulations; the individual's responsibility within the community; and the intellectual, social, emotional, spiritual or ethical, and physical well being of its community members.
- Referral to services for drug and alcohol treatment can be made by the Health Center or Counseling Office.

The foundation of the philosophy concerning alcohol and drug abuse for College of Marin is the firm commitment to an educational program which provides the adequate information and referral to help all members of the academic community to make informed and responsible decisions concerning the use of any controlled substance. The institution is committed to a healthy environment for learning and living.

Smoking Policy

In order to provide a safe learning and working environment for students and employees, smoking is prohibited in all indoor locations and within 25 feet of any building, including covered walkways, courtyards, ramps, or entrances to buildings. Violation of this policy could lead to disciplinary action under applicable disciplinary procedures. For a complete copy of the Smoking Policy and Guidelines, or a copy of the Student Discipline Procedure, contact the Director of Student Affairs and Health Center, Rm SS 251. Phone 415.485.9375.

Drug and Alcohol Policy—

Employees

It is the policy of the Marin Community College District to maintain a drug and alcohol-free workplace for employees.

- The unlawful manufacture, distribution, dispensing, possession or use of controlled substances or alcoholic beverages are prohibited on any District property. The term "controlled substance" is defined in Health and Safety Code 11007. An exception to the above is when alcoholic beverages are produced in connection with an authorized class.

Drug and Alcohol Policy—Students

College of Marin does not permit or condone the consumption of alcoholic beverages by any individual. All local, state, and federal laws concerning the possession or use of any controlled substance are enforced. The institution is committed to a healthy environment for learning and living.

Students are specifically reminded that they are guided by the Student Conduct Policy which states the following to be incompatible with an institution of higher education:

- The use, possession, sale, or distribution of narcotics or other dangerous or illegal drugs (as defined in California statutes) on college property or at any function sponsored or supervised by the college.
- The possession or use of alcoholic beverages on college property, or at any function sponsored or supervised by the college, with the exception of when alcoholic beverages are produced in connection with an authorized class.

Legal Sanctions—Illicit

Drugs and Alcohol

Students and employees are reminded that state, and federal laws provide for a variety of legal sanctions and penalties for the unlawful possession, or distribution of illicit drugs and alcohol. These sanctions include but are not limited to incarceration and monetary fines. All reports of suspected violations will be thoroughly investigated and prosecuted to the full extent of the law.

Further information on these state and federal statutes will be maintained in the College Police Department and the Office of Student Services. Copies will be made available to students and employees.

Equal Opportunity

The Marin Community College District is committed by policy not to discriminate on the basis of, or the perception of any one or more of the foregoing characteristics: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, or veteran status in any of its educational and employment programs and activities, its policies, practices and procedures.

Students who believe that this policy has been violated have the right to file an internal complaint or a complaint with the Office of Civil Rights.

The Marin Community College District makes every attempt to stay in compliance with the requirements of Title IX of the 1972 Education Amendments, the Equal Employment Opportunity Act of 1972 (Title VII of the Civil Rights Act of 1964 as amended), the Civil Rights Act of 1991, and Section 504 of the Rehabilitation Act of 1974, the Americans with Disabilities Act, the California Fair Employment and Housing Act of 1980, the California Fair Employment and Housing Commission Rules and Regulations, and the Vietnam Veteran's Readjustment Act of 1974.

College of Marin, under the Equity in Athletics Disclosure Act of 1994, provides information concerning the operation of its intercollegiate athletics program. A completed report is available in the Admissions and Records Office, the Library, and the Athletic Department for public review.

College of Marin Board Policy 3430 prohibits verbal, physical, visual, and sexual harassment of any applicant, employee, or student by any District employee on the basis of any category or combination of discriminatory categories prohibited by state or federal law. Nonemployees while on the District property are also expected to follow these guidelines.

It is further the policy of this District to ensure equal opportunity in all of its programs and in all aspects of employment. The lack of English skills will not be a barrier to admission to and participation in vocational education programs.

Parking

Parking Information

Parking permits are required at all times, including evenings (except Saturdays, Sundays, and school holidays). Be sure to read the signs at the entrances to parking lots. The signs explain what type of permit is allowed in the lot (staff or student), and include any additional parking regulations. For student parking lot locations, see the campus maps.

Daily permits and semester permits are valid at either campus. All California Vehicle Codes can be enforced in campus parking lots. Obey all signs and markings. All vehicles improperly parked will be cited, and may be towed.

Daily Parking Permits

You may purchase a daily parking permit from dispensers located in several student parking lots. In the event of a dispenser

malfunction, you must purchase a daily permit from a different machine. Please report all malfunctions to the campus police at 415.485.9696. The cost for a daily permit is \$3 (subject to change). Daily permits must be visible on the driver side of the vehicle dashboard.

Semester Parking Permits

A semester permit is much more convenient, and will save you money, compared to a daily permit. The semester permit may be purchased for \$50 (subject to change) at the Offices of Admissions & Records. Proof of enrollment and valid identification are required (only one permit per person). Summer session permits are \$25 (subject to change). Semester permits must be attached inside the vehicle on the lower left corner of the front windshield. Lost or stolen permits are not replaced.

Disabled Students Parking

No parking permits are required for disabled students. A disabled placard or license plate issued by the State of California Department of Motor Vehicles must be displayed.

Financial Aid Students Parking

Students receiving Financial Aid are permitted to purchase parking permits at half price.

IMPORTANT NOTE: Due to construction, parking closures are in effect on both campuses. Campus maps identify lot closures at each campus. We appreciate your patience.

Building a sustainable future at College of Marin

Former COM Superintendent/President Irwin P. (Red) Diamond (1921-2010) celebrated the opening of the new Diamond PE Center on Oct. 1, 2009

In response to the College of Marin Board of Trustees' 2004 resolution on environmental stewardship and sustainable facilities, and recognizing a need to contribute to a global reduction in greenhouse gases, the Marin Community College District is focusing sustainability efforts around several key initiatives and educational opportunities:

Renewable Energy

A 16-structure system at the Kentfield campus' Irwin P. Diamond Physical Education Center includes 72 photovoltaic panels and is expected to produce 210 kilowatts of electricity, enough to supply approximately 50 percent of the PE Center's power needs.

LEED Certification

LEED certification requires new and modernized buildings to be energy efficient, reduce water consumption, and maintain high air quality. Examples of LEED credits include recycled or recyclable building materials, transportation demand management, green roofs, and tobacco smoke control. All six current Measure C building projects are registered, and at least

one of the projects is expected to reach at least silver certification.

Geothermal Heat Exchange Systems

Both COM campuses have installed ground-source heat exchange systems for several bond-funded projects. These systems, installed under existing parking lots, will heat or cool piped water in a closed loop feeding to building heating and cooling equipment. This system will reduce the amount of energy required to heat and cool the new buildings.

Environmental Impact Reports

Since the Board certified EIRs for the Measure C bond program in November 2007, the district has been moving forward with implementation of mitigation measures, which, like LEED, are diverse in nature. Some of the mitigation measures, such as transportation demand management, overlap with LEED credits. Others, such as cultural resources monitoring, are specific to this program.

Instructional Programs

Various instructional programs at the College of Marin have also recognized the critical need to build a sustainable world. Examples include three highly visible IVC programs:

The Center of Sustainable Horticulture

Water Management and Technology Education Center

Solar Panel Certificate Program

In addition, the student-led Environmental Action Club is working on recycling, composting, and other waste management initiatives.

College of Marin Construction Update

Construction projects at College of Marin have been going full steam ahead for the past two years. The Irwin P. Diamond Physical Education Center at the Kentfield Campus reopened its doors in fall 2009. The Transportation Technology Complex will reopen at the Indian Valley Campus in May 2010. The new Science / Math / Central Plant Complex has broken ground at the Kentfield campus and the Fine Arts Building is well underway. Plans for a new Academic Center at the Kentfield Campus are being considered. All projects use sustainable building principles that will conserve energy and water and meet LEED standards. College of Marin's green building initiatives have been made possible thanks to the support of our community in passing Measure C in 2004. More information about College of Marin green building projects is available online at <http://www.marin.edu/MeasureC/PhotoGallery/index.htm>. For more information call 415.495.9343.
